

TRIMBLE EARTHWORKS FOR COMPACT MACHINES

Trimble Earthworks is also available for compact grading attachments with Single/Dual GNSS, Single/Dual Laser, Single/Dual Sonic and Total Station guidance options. A tailored 3D solution for applications such as site projects where full size grading machines are unable to operate in the confined environment or for the contractor looking to expand opportunities for 3D machine control jobs.

The operator UI remains consistent with larger machines

- Compact loader and attachment icons for the brand of grading attachment
- Supports Trimble TD5X0 Display and BYOD
- Office and in-field design support

Dedicated software license options and alternative hardware configurations allow for easier installation at lower expense.

MADE FOR YOUR SMALL MACHINES

Trimble Earthworks for Compact Machines delivers on the needs of your small machines.

Offering a wireless connection to the machine display for maximum flexibility, as well as compact machine-specific interface elements, Trimble's latest offerings will help you maximise the productivity of your small equipment.

OPTIONS TO GET THE JOB DONE RIGHT

Trimble Earthworks for compact machines gives you a variety of sensor options to meet the needs of your next job.

Offering GNSS based systems, as well as universal total station and laser options, we have what you need whether flexibility or the ultimate level of precision is your goal.

BLADE-MOUNTED DUAL/SINGLE GNSS SYSTEM

DUAL/SINGLE LASER SYSTEM
